Joshua R. Anderson Joins Sabrient Systems Research Staff

SANTA BARBARA, CA, March 13, 2004 – Joshua R. Anderson has joined Sabrient Systems as Senior Research Scientist. Anderson is a financial model developer and Sabrient's computational-systems architect. His research interests include developing models of investor behavior at individual and institutional levels, and applying these in studies that help form market outcome expectations. He was previously with BlackRock Financial Management in New York.

Anderson received a Ph.D. in Economics from the University of California at Santa Barbara, and a B.S. in Electrical Engineering from the University of Colorado at Boulder.

About Sabrient Systems

Sabrient Systems, LLC (http://www.sabrient.com) is an independent firm specializing in fundamentals-based, quantitative equity research. Sabrient's proprietary methodology, developed by Chief Market Strategist and industry pioneer David Brown, employs multi-factor filters and fuzzy-logic scoring to analyze nearly 6,000 U.S.-traded stocks and identify those that appear poised to outperform or under-perform the market. Founded in 2000, the firm offers customized quantitative research to traditional asset management funds and hedge funds, each employing some combination of Sabrient's quantitative stock rankings, mechanical trading systems, and portfolio strategies. Sabrient Systems is headquartered in Santa Barbara, CA.
